

Quality, Health & Safety & Environmental Policy Statement

The Gunit Group provides concrete repair services, external refurbishment and passive fire protection and is committed to achieving and maintaining the highest standards of health, safety and welfare our aim is to ensure that its operations are conducted in a way as to safeguard the health, safety and welfare of all employees at work, including other persons and environments that may be affected by its activities.

We are committed to encouraging a cultural change within our workforce and believe that by influencing and engaging with people in a way that ensures they make the right decisions in the first place will enable us to meet our objectives of providing a culture where zero harm is an achievable goal.

The Gunit Group is committed to the continual improvement and review of its quality, health & safety and environmental performance. The Gunit Group to consult and participate with its customers to ensure:

- services are designed to meet their needs;
- on-time service delivery;
- product and service performance which is fit for their purpose;
- timely and accurate information;
- quality built-in to everything we do;
- innovation and enterprise;
- value for money.

The organisation has implemented procedures to ensure that its activities and the activities of its subcontractors are carried out in conformance with all relevant statutory and regulatory requirements, codes of practice and industry best practice.

Our statement of general policy is:

- to provide adequate control of our health & safety risks and environmental aspects;
- to consult with our employees and subcontractors on matters affecting quality, health and safety and the environment;
- to provide and maintain safe plant and equipment;
- to ensure safe handling and use of substances;
- to reduce as far as is reasonably practicable the use of hazardous materials and substances;
- to provide appropriate information, instruction and supervision for our employees and subcontractors;
- to ensure our employees and subcontractors are competent to do their tasks, and to give them adequate training;
- to prevent accidents, cases of work related ill health and environmental incidents;
- to maintain safe and healthy working conditions;
- to comply with all relevant legislation and industry best practice;
- to monitor the consumption of energy and resources and to promote efficient practices at all times;
- to identify, monitor and to recycle waste of all kinds where reasonably practicable;
- to identify and monitor our emissions minimising their impact upon the environment;
- to prevent pollution where reasonably practicable;
- to set targets and measurable objectives to improve quality, health & safety and environmental performance where reasonably practicable;
- to establish procedures to ensure that waste is handled and disposed of in accordance with regulations etc;
- to draw up plans to deal with environmental and safety emergencies;
- to provide environmental awareness training, where required, to employees, visitors and subcontractors;
- to seek a partnership approach and co-operation with interested parties to resolve issues effectively;
- to review, evaluate and re-evaluate suppliers and subcontractors ensuring materials and services are established that minimise the impact upon the environment.
